comments

from sponsors, exhibitors & attendees

"Fantastic job on the AEC 2020 virtual event! Attendance looked great, the platform was engaging and the speakers were interesting!" - *PAS Global, LLC*

"Thank you for all your work on organizing the AEC virtual event. I thought it was excellent and the sessions went smoothly and were well done. Overall a great experience." - *Process Combustion Solutions*

"The Hopin platform is very good and the AEC team did a great job of providing attendees with the information needed to make the most of it, like the Virtual Event Preview video. Please share my thanks and congratulations." - *Sherritt International*

"The lineup was STACKED! I saw the machine learning headliner, Cory Janssen, and had to attend." - *IEEE*

"Lots of kudos for doing "something" rather than just cancelling the event. Great job to the AEC Team." - *Nutrien*

"I wanted to thank you for all your hard work on putting together the digital AEC conference. I know planning it would have come with it's own unique challenges and I really believe it was a tremendous success. The response we've gotten from our talks has been very positive and allowed us to reach our key audience which is all we can ask for. You were all incredibly helpful in getting everything up and running and we look forward to conferences (digital or otherwise) in the future." - *ATMOS International*

"You've been all-stars delivering an excellent experience. Thanks for making this work, and exceeding everyone's expectations. Very positive feedback on the virtual event! All the attendees I've spoken with have let me know this was time well spent." - *Enbridge*

"Thank you to all the organizers for getting this together. The platform was a great alternative to face to face." - *SRP Control Systems*

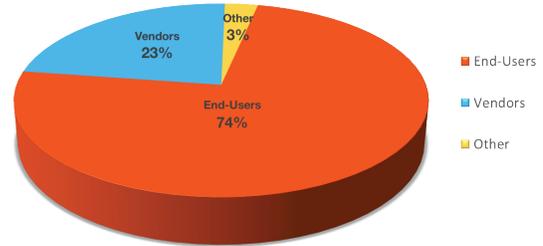

"Thank you to everyone involved, it was a great event and a great way to meet new people in the industry." - *Orevus*

"Congrats to the whole team for organizing such a unique event in this unique time! Going to remember forever!" - *Canem Systems*
